This copy came through fine. I will put a copy in the site file.

I have to look back at the email to see when Steve wanted a meeting. If we are going to discuss negotiations then I need to be able to see whether DEQ attorneys can attend also.

Mavis

The ROD was signed late Friday afternoon. Here's a pdf copy with the signature page and tables and figures. I am also going to send a copy of the text only in case the file is too large. If this version doesn't get through I'll burn a copy on a CD with the figures and send it over .

Again, thanks for all your work on the document and state concurrence. I'm checking with our legal folks to get an attorney assigned for the negotiations. I'm not sure we'll have an attorney up to speed for the October meeting, but am hopeful an attorney will be ready to go by later this month.

Chip
